Sea Green

is green with a teal hue. It complements the natural color of water and blends into the shoreline. It has been used on Metal Craft products since 1958.

Earth Sand

is tan with a dark sand hue. It complements a weathered grey/wood brown decor. It was introduced in 1997 and is our most popular color.

Cloud White

is white with a light grey hue. It complements any color of water or any outside decor. It was introduced in 2000.
